

360-DEGREE FEEDBACK ASSESSESSMENT FOR DEVELOPMENT

Developed by Talent Strategy

Report for Sample

3/20/2024

Report Overview

This feedback contains the results of your 360-degree feedback assessment and is intended to inform your growth and development.

SECTION 1: COMPETENCY DASHBOARD

Use this section to get a high-level overview of your perceived strengths and development needs. Survey items are organized into groups of characteristics called competencies. Competencies are knowledge, skills, abilities, and other factors that are important for a leader's success. The scores for all questions in a competency are averaged to produce an overall competency score. This section presents your scores for each competency as rated by you (self-rating) and others (all others who rated you).

SECTION 2: COMPETENCY DASHBOARD BY RATER GROUP

Use this section to get a high-level overview of your perceived strengths and development needs by rater role. This section presents your scores for each competency as rated by you (self-rating) and others by rater group.

SECTION 3: ADDITIONAL CONSIDERATIONS

Use this section to identify areas where you may be underestimating your abilities and where you may be overestimating your effectiveness. This section presents the ten items with the largest positive gap (others' ratings are higher than self-rating) and the ten items with the largest negative gaps (others' ratings are lower than self-rating).

SECTION 4: DETAILED RESULTS

Use this section to get the full details of how each rater group sees you on every item in the survey. This section provides a detailed breakdown of scores and items organized by competency. (A mean with a value of 0.00 indicates all members of a rater group selected "Not enough information" for that item.)

SECTION 5: OPEN-ENDED COMMENTS

Use this section to read open-ended comments. This section includes anonymous comments from evaluators from all the rater groups.

SECTION 6: RATINGS DISTRIBUTION

Use this section to view the distribution of ratings for each item. The Subject ratings are not included.

When three or more raters in a category provide feedback, the results of that category will be summarized as a distinct group. Assessments completed by only one or two raters in a non-managerial category will result in that category not being displayed, even though the results will be used in the overall totals in your report. The purpose of a minimum of three responses is to protect rater anonymity.
